30 years of structured English language training

International confidence and eloquence
in the English language gives you an
influential voice in the world

The Octorial programme

The unique advantage of the course is that it offers both a high level of individual attention with a wide mix of team work training and mentored independent learning sessions. The Octorial programme is a carefully structured programme, crafted by educationalists and which includes continuous assessment with daily, weekly and monthly milestones for each student according to their personal objectives.

The course includes:

Language skills lessons to develop language competency

The **grammar, logic and rhetoric lessons** build the core skills of grammar and sentence structure and the art of constructing an argument. Inspired by the trivium of a classical Liberal Arts education, these are the foundation stones of language knowledge.

The **comprehension, vocabulary and précis lessons** use a wide variety of authentic materials such as literary texts, news articles, research reports and current affairs audio and video to build new vocabulary and develop listening comprehension skills and speaking skills. There is an emphasis on intonation and pronunciation. The art of editing and summarising is practised in the précis exercises.

The **composition and text analysis lessons** focus on developing the student's skills and flair for written English. Students work on practice exercises in a range of styles and registers including creative writing, short stories, improvisation, essay writing, reports on researched topics, reviews, commentaries and literary criticism. Reading comprehension and understanding of the written word is developed in the text analysis sessions. Socratic circles are used for text discussions.

Continuous assessment ensures that each learner feels challenged. There is a progress test every Friday.

Communication skills lessons to build confidence and fluency

• Plenary Sessions

Designed to bring students together at the start and end of the school day. The morning plenary acts as a warm-up session. The afternoon plenary gives students an opportunity to reflect on the learning experiences of their day.

• Spoken Performance Workshop

Students are set tasks which challenge them to develop their speaking and active expression in the language. There is also a focus on non-verbal communication such as body language.

• Team Project

Each week, students work in small teams to produce and deliver a project at the end of the week. This gives real-life practice in presenting and formal writing. Students also develop problem solving, collaboration, organisation and planning skills. Digital connections with sister schools allow students to collaborate with other teams from outside the school, to create real-life examples of authentic digital connections.

The Mentored Dissertation for critical thinking skills

The Mentored Dissertation is a piece of work which is personal to your study objectives and which is completed over the duration of your course. It is tailored to the level of the student and can include: a piece of research, a video project, a collection of essays, a piece of creative writing, a personal statement and CV, exam practice texts and exam essay writing under timed conditions. At the beginning of each week, the Dissertation Tutor sets individual goals with each student and works with the student during the week to support them in the achievement of these weekly targets. The projects which you create in this session evolve as your course progresses because your personal objectives change as you see your own progress.

Level testing and milestones

On arrival, students are tested in both speaking and writing. Then we monitor you in each throughout the week because your rate of progress can differ in each. On your second day you complete a short 'First Impressions' feedback form which helps us to address any areas for attention. In the middle of your course, you have a mid-course interview with the Lead Teacher to review study objectives. After departure, students can choose to maintain contact with tutors in one hour Skype sessions for post-course support or instruction if needed.

Essential programme

A programme of 18 hours per week, but with full-time student commitment. Students may select their choice of 18 hours from the Octorial programme. Outside of lesson times, students are welcome to remain in school to work on personal study assignments and to make use of all of the school facilities.

Enhanced programme

The Octorial programme is supplemented with one-to-one lessons with a personal tutor. This combined approach allows you to aim for fluency in the international setting of the classroom while you examine areas of specific interest or revise areas of weakness with your tutor in the one-to-one lessons.

This programme is very effective for professionals who desire some focus on their area of speciality such as marketing, law, finance, medicine, engineering, etc. In the one-to-one lessons tutor and student can explore specific content in depth which allows the student to gain fluency in their area of specialisation and therefore improve their management and leadership skills.

Conditions for cancelling or changing a course by the Student

- If the School receives the cancellation before the course starting date, the School will retain the deposit.
- After the course has started, a student must give 10 days' written notice to the Principal of changes to or cancellation of a course. A cancellation fee equivalent to 1 week's course fees will be charged. Refunds cannot be made for non-attendance, absence due to illness or any other cause.

- If a student is denied a student visa or study permit and provides the School with a copy of the rejection letter on or before the first day of classes, the School will refund the course fees.

Change or Cancellation of a course by the School

Sometimes it is agreed between the School and a student that it would be beneficial for the student to be moved to another School course. When this happens only a course of at least equivalent cost will be offered by the School.

The School reserves the right to cancel a course, or make changes to course arrangements, without liability, if forced to do so for reasons beyond its control. If this happened, the School would seek to offer alternative arrangements, dates or venues.

If the School cancelled a course booked and paid for by a student in accordance with these terms other than for reasons beyond its control, and did not offer an alternative acceptable to the student, the School would pay compensation as follows:

- Where the cancellation is before the start of the course, compensation equal to the deposit paid by the student or
- Where the cancellation is after the start of the course, compensation equal to one week's fees.

Liability and Insurance

Students should make sure that they organise their own travel insurance to cover medical costs and repatriation costs in the case of an illness or accident.

The School acts only as an intermediary between its students and travel organisations and between students and host families. Unless and to the extent caused by the School's negligence, the School cannot be held responsible for any delay or accident during a journey nor for any incident which may happen during the student's stay with the host family. The School will, however, endeavour to defend the student's interests in the event of breach of contract on the part of the travel organisation or the host family.

The School reserves the right not to allow on the course a student suffering from any illness, medical condition, or mental or physical disability which has not been disclosed on the Application Form.
